Resolution No. 2003-09-31

MUSHKEGOWUK COUNCIL HUB SYSTEM – WATER QUALITY

WHEREAS the Mushkegowuk Council First Nations have a responsibility and desire to provide safe drinking water for its members; and

WHEREAS the majority of Mushkegowuk First Nations are forced to operate their facilities with limited budgets and inadequately trained operators; and

WHEREAS many of the existing water treatment facilities are in need of substantial upgrades in order to be able to produce safe, high quality drinking water; and

WHEREAS the Mushkegowuk Council First Nations have joined together to develop and implement a Hub System to address water quality issues in the Mushkegowuk region.

THEREFORE BE IT RESOLVED that the Mushkegowuk First Nations fully support, in principle, the creation and establishment of a Hub System to address the issues related to water quality.
