MUSHKEGOWUK COUNCIL
 GRAND ASSEMBLY RESOLUTION

RESOLUTION NO. 1987-43

MOVED BY:

Chief Fred Wesley
 Attawapiskat Band

SECONDED BY:

Chief Willie Wesley
 Kashechewan Band

SUBJECT: FLOOD MAPPING STUDIES

WHEREAS the Attawapiskat Band Council has a Contribution Arrangement in place with the Department of Indian Affairs and Northern Development to hire Lathem Group Consultants to perform flood mapping studies for Fort Albany, Kashechewan and Attawapiskat communities, and;

WHEREAS the objectives of this study are to:

1. Evaluate and define limits and frequency of flooding;
2. Produce maps illustrating the extent and depth of flooding;
3. Undertake preliminary engineering investigations to develop remedial measures and costs to reduce or eliminate flooding in flood-prone areas.

AND WHEREAS the second phase of this study will be completed by April 1988 and the final report to be presented by June 1988, and;

WHEREAS a similar study is being presently undertaken and jointly funded by Indian Affairs and Environment Canada without prior consultation of the Bands, and;

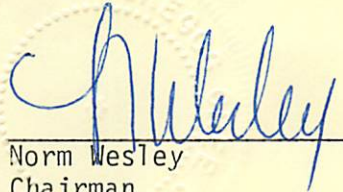

WHEREAS the Bands feels that this second study will produce conflicting results which could be used as a tool by the Government to withhold capital dollars for major projects and developments because of the communities being situated in flood prone areas.
